

01 / SERVER REQUIREMENTS

60 agents. 4 separate servers.

Frontend: 4 vCPU / 16 GB RAM.

Baaki teen servers: 8 vCPU / 16 GB RAM each.

60

Target systems

28 vCPU

Total requested CPU

64 GB

Total requested RAM

Server / kaam	CPU / RAM	Required disk
1 / Backend API + alert worker + SOAR	8 vCPU 16 GB RAM	100 GB Total
2 / IPS + Kafka + Velociraptor Teeno ek server par	8 vCPU 16 GB RAM	200 GB Total, OS included
3 / Frontend Company + superadmin portal	4 vCPU 16 GB RAM	80 GB Total
4 / Database MongoDB	8 vCPU 16 GB RAM	500 GB data OS disk alag

Disk ka simple rule: upar required capacity hai. Hosting plan mein zyada disk ya RAM included ho sakti hai; billing poore plan ki hogi.

Yeh planning setup hai. 60 agents ki actual capacity logs aur forensic hunts par test hogi. Server 2 ke 200 GB mein Kafka retention aur evidence collection limited rakhni hogi.

Har server ka kharcha

INR estimate: \$1 = ₹90. Applicable tax extra.

Server	AWS Lightsail	DigitalOcean	Hostinger* Offer / renewal
1 / Backend	₹15,120 \$168	₹15,120 \$168	₹2,199 / ₹4,399 KVM 8
2 / IPS + Kafka + Velociraptor	₹15,120 \$168	₹16,020 \$168 + \$10 disk	₹2,199 / ₹4,399 KVM 8
3 / Frontend	₹7,560 \$84	₹11,610 \$126 + \$3 disk	₹1,099 / ₹2,399 KVM 4
4 / Database	₹19,620 \$168 + \$50 disk	₹19,620 \$168 + \$50 disk	₹2,199 / ₹4,399 KVM 8; 400 GB*
Servers + disk	₹57,420 \$638 / month	₹62,370 \$693 / month	₹7,696 / ₹15,596*
Backup reserve	+₹6,300	+₹6,300	+₹6,300
Monthly budget	₹63,720	₹68,670	₹13,996 / ₹21,896*

AWS: 8/16 Compute Optimized + 640 GB included disk; frontend 4/16 General Purpose + 320 GB. Database mein separate 500 GB disk added hai.

DigitalOcean: dedicated CPU plans: 8/16 + 100 GiB; frontend 4/16 + 50 GiB. Extra disks: Server 2 +100 GiB, frontend +30 GiB, database +500 GiB. Provider units GB/GiB hain; CPU performance identical nahi.

* **Hostinger:** KVM 8 = 8 vCPU / 32 GB / 400 GB; KVM 4 = 4 vCPU / 16 GB / 200 GB. **500 GB database requirement पूरी नही होती.** Yeh comparison cost hai; DB storage solution ka quote extra chahiye. Rates prepaid monthly equivalent hain; renewal shown for 2-year term.

Backup reserve planning estimate hai, provider ka fixed backup package nahi. Actual FX, region, storage usage aur bandwidth overage se bill badlega. LB / Redis next page par optional hain.

Published pricing checked 09 Oct 2026: [AWS Lightsail](#) · [DigitalOcean](#) · [DO disks](#) · [Hostinger India](#)

Add-ons aur profit

Optional / month	AWS Lightsail	DigitalOcean	Hostinger Offer / renewal
Load balancer	₹1,620 (\$18) Managed web LB	₹1,080 (\$12) Regional HTTP LB	₹599 / ₹999 KVM 1, self-managed
Redis VPS	₹1,080 (\$12) 2 vCPU / 2 GB	₹1,080 (\$12) 1 vCPU / 2 GiB	₹599 / ₹999 1 vCPU / 4 GB
Dono ka extra	₹2,700	₹2,160	₹1,198 / ₹1,998

Redis self-managed hai. LB ke saath backend failover chahiye to second backend add karo: AWS / DO + **₹15,120/month**; Hostinger +**₹2,199 / ₹4,399**. Yeh cost neeche included nahi. Single Hostinger LB khud fail ho sakta hai.

Ek agent ka subscription

₹1,999 / agent / month

Software + basic support; applicable tax extra.

60 paying agents = **₹1,19,940 monthly revenue**

Neeche 4 servers + backup reserve + LB + Redis included hain. Basic support budget **₹10,000/month** aur payment fees **3% (₹3,598)** subtract kiye hain.

Provider	Cloud with options	Estimated surplus
AWS Lightsail	₹66,420	₹39,922 / month
DigitalOcean	₹70,830	₹35,512 / month

Hostinger: renewal par options ke saath ₹23,894/month reference cost; 500 GB DB solution ke baad profit dobara calculate hoga.

Profit ka rule: revenue – cloud – support – payment fees. Yeh estimated surplus hai; full analyst salaries, 24x7 human SOC, development/marketing, paid AI, large investigations aur taxes included nahi.
